CHIEF 'SKONK'—The National Aviation Club will present its Award for Achievement here Thursday to Clarence L. (Kelly) Johnson, developer of the A-11, recently described by the President as "the world's fastest plane." Mr. Johnson, a vice president of Lockheed Aircraft Corp., heads a team known in aviation circles as the "Skonk Works" famed for designing and building such planes as the A-11, U-2 and F-104 Starfighter.
